1 hour 10 minutes (*direct*) flight in a light aircraft from **Harare** to either Kariba Main Airport or Fothergill Airstrip

*Daily seat rates are available from a variety of charter companies. Please contact us for a quote.*

## Where are we in terms of Matusadona National Park, Lake Kariba?

Guests will land at either **Fothergill Airstrip (the closest and preferred option)** or **Kariba Main Airport** based on weather conditions & at the charter companies' discretion.

From **Fothergill Airstrip** (used during the dry season months of April to November) it is a **30-minute game drive** to the camp. This costs **USD15 per person one way**. This is done by Changa in a game drive vehicle. (Occasionally when the lake levels are high, this transfer will be done by boat as Fothergill becomes an island – the cost remains the same and it takes approximately 20 minutes).

From **Kariba Main Airport** (used during the rainy season months of December to March) it is a **20-minute drive** from the airport to Marineland Harbor followed by a **40-minute boat cruise** across the lake to Changa. This is outsourced and additional costs are involved depending on numbers of pax and times of travelling.

*Flying in over Lake Kariba is something truly incredible, leaving you with a clear idea of just how vast the lake is, conjuring up magical stories of what lies beneath the depth of the blue waters. You will enjoy views of the rugged Matusadona mountain terrain, outcroppings of islands, a sea of white trees jutting out of the glass like water and herds of elephants and hippos grazing on the new shoots of green grass along the shorelines.*
